TEVADAPTOR® Closed Drug Reconstitution and Transfer System

Catheter Adaptor

Fits any standard Foley catheter connection

Intended use:

Tevadaptor[®] is a Closed System Drug Transfer Device (CSTD) that mechanically prohibits the release of the drug in vapor, aerosol or liquid form during preparation and administration, and prevents the introduction of microbial and airborne contaminants into the drug or fluid path, allowing the system to minimize exposure of individuals, healthcare personnel, and the environment to hazardous drugs.

TECHNICAL DATASHEET

Catheter Adaptor:

The Tevadaptor[®] Catheter Adaptor is intended for the safe administration of drugs directly into a bladder catheter. The Catheter Adaptor fits all sizes of standard foley catheters and converts an open catheter connection to a closed Tevadaptor[®] connection.

For preparation of the instilled drug, a Tevadaptor® Syringe Adaptor/ Syringe Adaptor Lock and Vial Adaptor are used to safely transfer the drug from the vial to the syringe. The Syringe Adaptor is then connected for administration to the patient's foley catheter via the Tevadaptor® Catheter Adaptor connection. Its Intuitive design makes it easy to use: with minimal effort both components can be connected and a simple push on the wings of the Syringe Adaptor will disconnect them again. During manipulation, the "click" sound indicates a safe and secure connection.

TECHNICAL DATASHEET CATHETER ADAPTOR

Order Information

Article number / Reference	1MG245589
User box quantity	30 pcs
Transport box quantity	30 pcs

Product Characteristics

Product Technical data	
External fitting	Urinary catheter
Fluid path volume	0.7 mL
Septum piercings	Up to ten times
Shelf life	3 years
Sterilization	Ethylene oxide

Material Specifications

Tolerates desinfection with alcohol 70% and chlorhexidine in alcohol

(5 mg/70% alcohol)

DEHP-free PVC. Non-pyrogenic. Free from latex, lead, cadmium, arsenic and chrome. Meets standards and regulations with regards to the environment.

Component	Material
Connectors	ABS
Tubing	PVC
Elastomeric sealing	Polyisoprene

Regulation

CE 0483

re-sterilize

with DEHP

Not made with natural rubber latex

is damaged
